Frequently-Asked-Questions
IMPORTANT NOTE ON LITHO-CAN

The lithographed can (litho-can) is the can with the label printed on the can surface. It looks more attractive than the conventional paper label. However, to pack a product in the litho-can, the buyer should know about some other condition that will take place as shown in the following tables.

	First order	**Repeating order**
Minimum order to print the litho-can	150,000 cans (approx. 3 x 20' FCL)	100,000 cans (approx. 2 x 20' FCL)
P/O confirmation and payment	1. Irrevocable L/C drawn at sight for 100% value 2. T/T for 50% value to secure the litho-can printing, and D/P at sight for the rest	Same
Lead time for litho-can printing	4 weeks after label and P/O confirmed	3 weeks after P/O confirmed
Lead time for 1st FCL production and incubation	2 weeks after litho-can finished	Same
Lead time for the following FCLs (2nd FCL onwards)	2 weeks after 1st FCL	Same

If the buyer wants to split the delivery of finished cargo into partial shipments, …	• All cargo must be shipped out at the minimum rate of 1 x 20' FCL per month. Otherwise, the packer reserves the right to treat the remaining as abandoned cargo.
If the buyer supplies the litho-can to the packer, …	• No minimum orders required • P/O is confirmed when litho-can delivered to the packer • Production fee is settled by D/P at sight or equivalent • The can seaming profile must be compatible to POONSUB CAN's and SWAN INDUSTRY's profile • Recovery of finished can output = 99.5% min. • All cargo must be shipped out at the minimum rate of 1 x 20' FCL per month. Otherwise, the packer reserves the right to treat the remaining as abandoned cargo
